

New Found Records Ep. 672 "Country 45s"

DESCRIPTION/PLAYLISTS/BREAK TIMES

Airs May 21, 2022 on CHMR 93.5 FM

DESCRIPTION

Do you like country music... REAL country music?

If so, you'll LOVE this episode of New Found Records because we've stacked out turntable high with great country singles from the 60s, 70s & 80s.

But you haven't heard these records on mainstream radio. That's because they aren't the classic country hits that commercial radio plays over and over and over again. These are beautiful vintage recordings that have flown beneath radio's radar and been relegated to the depths of vinyl oblivion for decades. And they're all performed and/or composed by Newfoundland's pioneer recording artists and songwriters.

So we've blown the dust off these obscure gems, spun them clean and shone the spotlight on them. Tune in and treat your ears to a superb mix of genuine country music that you won't hear any place other than The New Found Records Radio Hour!
